prices. However, in case of selective loading, wherever applicable, which is not covered under the purview of special sizing or beneficiation, the prices shall be governed by clause 12(b) as mentioned below:

(b) i. All selective loading irrespective of means of loading and modes of dispatch to be considered as loading of steam sized coal of +25mm. Therefore, in case of selective loading, wherever applicable, steam sizing charge, which is Rs. 270.00 per tonne, to be charged on ROM price on account of sizing.

ii. In addition to 12 (b) i above, beneficiation charge be levied for all selective loading. The beneficiation charge be the price difference as per the grade identified in the grade notification of the coal company for the steam and ROM respectively.

iii. Thus the selective loading charge from the ROM be the summation of steam sizing charge i.e. Rs. 270.00 per tonne and the difference of price arising out of the grades of steam and ROM.

This issues with the approval of competent authority.
